

# Preparing for Your Language Study in Argentina

Who Are You?

Who Are You?

Where Do You Come From?

Where Do You Come From?

In order to prepare yourself for your trip to Argentina, please begin by organizing a **packet of information about you and where you come from**. You are a representative of your culture and people you encounter will want to know more you and who you are. Your program organizers ask that you bring the following:

- Information about the U.S.A.
- Information about your home state (get creative: bring maps, flags, books, pictures and be ready to give a small presentation on where you are from).
- Were you born somewhere out of the U.S.A.? If so, bring information about where you were born.
- Bring a recipe of a typical dish from your region.
- Is there anything else unique about where you live? The people around you? If so, share that.

This is meant to be a fun activity and will enable you to think a little more about culture—both yours and the one you are about to visit.
